General Information

- **ZIH** is IT administration unit of TU Dresden
- Therefore, you can write to ZIH if you have any problems with IT services

<https://faq.tickets.tu-dresden.de/otrs/public.pl>
servicedesk@tu-dresden.de

- I am only contact person for
 - Your office PC/laptop
 - Software like Microsoft Office, Origin etc.
 - Network printer
 - Presentation support → Laptop, Microphones, Webcams, Presenter etc.

What does the IT infrastructure look like?

1. Communication & Collaboration
 - *How can we work efficient in a team?*
2. Data storage
 - *Where can I save my data?*
 - *How can I share my data?*
3. Software
 - *How can I get helpful licensed software for my work?*
4. Workstations and Server
 - *Where can I run hardware resource-hungry software?*
5. Security and Network
 - *What do I need to do to protect my data and the data of my colleagues?*

- What do I need to have access to all of that?

The screenshot shows the GigaMove 2.0 web interface. At the top, there's a header with the RWTH Aachen University logo and the text "GigaMove 2.0" and "Steffen Kampmann". Below the header, there's a sidebar with navigation links: "Provide file", "Request file", "Manage files", "Provided", and "Requested". The main content area is titled "Welcome to GigaMove 2.0" and has two columns. The left column is titled "Provide file" and contains text about providing a file up to 100 GB, which can be shared via email and downloaded with a link. It also mentions that the file will be scanned for viruses. At the bottom of this column is a blue button labeled "PROVIDE". The right column is titled "Request file" and contains text about requesting a file from an authenticated or anonymous person via email. It also mentions that the file will be scanned for viruses. At the bottom of this column is a blue button labeled "REQUEST".
