For staff members (please prepare in third person):

... studied Physics at the Ernst-Moritz-Arndt Universität Greifswald (Germany) and at the University of Sussex (Brighton, UK) from 1996 to 2003. He got his Diploma on the "theory of carbon nanocontacts" with Dr. Alexander Quandt.

For his PhD he went to the Max Planck Institute for Solid State Research in Stuttgart and worked in the group of Prof. Ole K. Andersen. There, he primarily worked on bulk and nano structures of elemental boron, conventional superconductivity, and methods of electronic structure calculations (especially density functional theory).

In Oct 2008, after defending his PhD thesis, he joined the group of Prof. Gianaurelio Cuniberti as Assistant. In Dresden, ... plans to work on ab initio modeling charge and heat transport in nanostructures.
