☐ Herewith, I certify that I am aware that I am not allowed to give the Institute keys to any unauthorized third person.
☐ Furthermore, I agree on being listed with name, function, tel.no., email and a picture on the chair's homepage as well as on the websites of TU Dresden and that my name and telephone number are listed in the online attendance list and in the PMN WhatsApp chat.
☐ I notice that Prof. Cuniberti has to be informed and to approve any document which is related to the Chair of Materials Science and Nanotechnology and which could have legal consequences for the TU Dresden. This concerns particularly grant proposals, patents drafts as well as manuscripts for publications. Such documents should be submitted to him for approval before filing. For patent and manuscript drafts you are asked to go through some internal peer report before sending your document to the secretariat/Prof. Cuniberti (more info: <https://nano.tu-dresden.de/shared/2>)

<p>Example of brief CV for our webpage: Please send to steffen.kampmann@tu-dresden.de and office.nano@tu-dresden.de the following text:</p> <p><u>For staff members (please prepare in third person):</u> ... studied Physics at the Ernst-Moritz-Arndt Universität Greifswald (Germany) and at the University of Sussex (Brighton, UK) from 1996 to 2003. He got his Diploma on the "theory of carbon nanocontacts" with Dr. Alexander Quandt. For his PhD he went to the Max Planck Institute for Solid State Research in Stuttgart and worked in the group of Prof. Ole K. Andersen. There, he primarily worked on bulk and nano structures of elemental boron, conventional superconductivity, and methods of electronic structure calculations (especially density functional theory). In Oct 2008, after defending his PhD thesis, he joined the group of Prof. Gianaurelio Cuniberti as Assistant. In Dresden, ... plans to work on ab initio modeling charge and heat transport in nanostructures.</p>
